Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Application No. Applicant(s) 10/767,479 MAKELA, MIKKO K. Office Action Summary Examiner Art Unit SAMIR TERMANINI 2178 -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --Period for Reply A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS. WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). Status 1) Responsive to communication(s) filed on 11 December 2008. 2a) This action is FINAL. 2b) This action is non-final. 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. Disposition of Claims 4) Claim(s) 1-48 is/are pending in the application. 4a) Of the above claim(s) _____ is/are withdrawn from consideration. 5) Claim(s) _____ is/are allowed. 6) Claim(s) 1-48 is/are rejected. 7) Claim(s) _____ is/are objected to. 8) Claim(s) _____ are subject to restriction and/or election requirement. Application Papers 9) The specification is objected to by the Examiner. 10) ☐ The drawing(s) filed on 31 July 2007 is/are: a) ☐ accepted or b) ☐ objected to by the Examiner. Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a). Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d). 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152. Priority under 35 U.S.C. § 119 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received. Attachment(s) 1) Notice of References Cited (PTO-892) 4) Interview Summary (PTO-413)

Notice of Draftsperson's Patent Drawing Review (PTO-948)

Notice of Informal Patent Application

DETAILED ACTION

BACKGROUND

- This Final Office Action is responsive to the following communications:
 Amendment filed on 12/11/2008,
- Claims 1-48 are pending. Claims 1, 10, 20, 30 and 40 are independent in form. Claim 40 is currently amended.

RESPONSE TO AMENDMENT

3. Arguments (filed on 12/11/2008) concerning the Examiner's Rejections of claims 1-48 made under 35 U.S.C. §102(e) in the previous Office Action (Mail dated: 9/19/2008) have been fully considered but not persuasive. These rejections are being maintained for the reasons below.

CLAIM REJECTIONS-35 U.S.C. §102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless-(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

 The rejection of Claims 1-48 are being maintained under 35 U.S.C. 102(b) as being anticipated by Peter Vale (PG-Publication 2002/0041291. hereinafter "Vale").

Art Unit: 2178

As to independent claim 1, Vale describe(s): a method for selecting a file from a file list ("...list...." para, [0006])., the method comprising; in response to an opening of the file list by a user ("...user...," para. [0033]), determining if there was a file previously selected by the user from the file list before the opening of the file list (".... Depending on the selected interactive element, input received while in edit mode may be used by the interactive element (e.g., entering characters into a textbox) or may cause a return to navigation mode (e.g., so that another interactive element may be selected)...," para. [0049]); if it is determined that there was a file previously selected by the user from the file list before the opening of the file list (e.g., "...list ...," para. [0049]), automatically determining if there is a next file listed relative to the previously selected file in the file list ("...if no interactive element has been previously selected...." para. [0058]); and if it is determined that there is a next file listed relative to the previously selected file in the file list ("...an interactive element based on the received direction input relative to a previously selected interactive element...," para. [0058]), automatically displaying the file list with the next file highlighted ("...the display of the content in the direction of the received direction input...." para. [0058]).

As to dependent claim 2, which depends from claim 1, Vale further disclose(s):

The method of claim 1 wherein the next file is listed immediately after the previously selected file in the file list ("...to a previously selected interactive element," para. [00651).

As to dependent claim 3, which depends from claim 1, Vale further disclose(s):

The method of claim 1 wherein the next file is listed a predetermined number of files

Art Unit: 2178

after the previously selected file in the file list ("...the amount of vertical separation between interactive elements" para. [0043]).

As to dependent claim 4, which depends from claim 1, Vale further disclose(s): The method of claim 1 wherein the next file is listed immediately before the previously selected file in the file list C... the previously selected interactive element is selected 352 ..., "para. [0041]).

As to dependent claim 5, which depends from claim 1, Vale further disclose(s):

The method of claim 1 wherein the next file is listed a predetermined number of files
before the previously selected file in the file list ("...element at the next vertical level in
the direction of direction input 320 that is closest in the horizontal direction to the
beginning of the previously selected...,"para. [0041]).

As to dependent claim 6, which depends from claim 1, Vale further disclose(s):

The method of claim 1 wherein the next file is the file listed immediately to the left
("...left arrow 556...,'.' para. [0049]), right ("...right arrow 554...," para. [0049]), up
("...up...," para. [0061]), or down of the previously selected file in the file list ("...down
arrow in a single line textbox...," para. [0061]).

As to dependent claim 7, which depends from claim 1, Vale further disclose(s):

The method of claim 1 wherein the next file is the file listed a predetermined number of
files to the left ("...left arrow 556...," para. [0049]), right ("...the horizontal direction ...,"
para. [0065]), up (), or down of the previously selected file in the file list ("...previous
item in the list ...," para. [0049]).

As to dependent claim 8, which depends from claim 1, Vale further disclose(s):

The method of claim 1 wherein the next file is the file listed immediately in front of or
behind the previously selected file in the file list C... amount that Element 3 overlaps
with Element 1...," para, [0043]).

As to dependent claim 9, which depends from claim 1, Vale further disclose(s): The method of claim 1 wherein the next file is the file listed a predetermined number of files in front of or behind the previously selected file in the file list ("...overlaps with ...," para. [0043]).

As to dependent claim 10, which depends from claim 1, Vale further disclose(s): The method of claim 1 wherein the next file is a file listed on an immediately preceding or following screen full of information ("...the interactive element exceeds the width of available display area...," para. [0058]).

As to dependent claim 11, which depends from claim 1, Vale further disclose(s):

The method of claim l wherein the next file is the previously selected file in the file list
("...the first interactive element relative to the beginning of the content...," para.
[0044]).

As to dependent claim 12, which depends from claim 1, Vale further disclose(s):

The method of claim 1 further comprising the step of: if there was not a file previously selected from the file list ("...selecting...," para. [0058]), displaying the file list with a predetermined default file highlighted ("...an interactive element based on the received direction input relative to a previously selected interactive element or, if no interactive

Art Unit: 2178

element has been previously selected, based on the direction input relative to the beginning of the displayed content...." para, [0058]).

As to dependent claim 13, which depends from claim 12, Vale further disclose(s): The method of claim 12 wherein the predetermined default file is the first file in the file list ("...the first interactive element relative to the beginning of the content...," para. [0044]).

As to dependent claim 14, which depends from claim 1, Vale further disclose(s):

The method of claim 1 further comprising the step of: if "there is not a next file listed relative to the previously selected file in the file list ("...the beginning of the previously selected interactive element is selected next...," para. [0046]), displaying the file list with a predetermined default file highlighted ("...is highlighted...," para. [0044]).

As to dependent claim 15, which depends from claim 14, Vale further disclose(s):

The method of claim 14 wherein the predetermined default file is the first file in the file
list ("...unless no interactive element has been selected previously, wherein the
interactive element closest to the beginning of the content is selected (not shown)...,"
para. [0041]).

As to dependent claim 16 which depends from claim 14, Vale further disclose(s):

The method of claim 14 wherein the predetermined default file is the previously selected file from the file list ("...unless no interactive element has been selected previously, wherein the interactive element closest to the beginning of the content is selected...," para. [0041]).

Art Unit: 2178

As to dependent claim 17, which depends from claim 1, Vale further disclose(s):

The method of claim 1 further comprising the step of in response to a user selecting a
file from a file list ("...multiple line textbox ...;" para.. [0060]), saving the information
identifying the selected file ("...An act of switching (953) from navigation mode to edit
mode upon receiving an action input also may be included as part of a step from
changing (950) the mode of a browsing system," para. [0060]).

As to dependent claim 18, which depends from claim 17, Vale further disclose(s): The method of claim 17 wherein the saved information is the file name of the selected file, (See Fig. 4).

As to dependent claim 19, which depends from claim 17, Vale further disclose(s):

The method of claim 17 wherein the saved information is an index number of the selected file in the file list ("...interactive elements in numerical order...," para. [0045]).

As to claims 20-29, these claims differ from claims 1-19, in that they are "means for" directed to a system for carrying out the processes of claims 1-19. Accordingly, claims 20-29 are rejected for the same reasons set forth in the treatment of claims 1-19.

As to claims 30-36, these claims differ from claims 1-19, in that they are directed to a system for carrying out the processes of claims 1-19. Accordingly, claims 20-29 are rejected for the same reasons set forth in the treatment of claims 1-19.

As to dependent claim 37, which depends from claim 30, Vale further disclose(s):

The device of claim 30 wherein the device further comprises a mobile communication
device ("...mobile/hand-held devices...," para. [0027]).

Art Unit: 2178

As to dependent claim 38, which depends from claim 30, Vale further disclose(s):

The device of claim 30 wherein the device further comprises a mobile telephone
("...wireless telephones...," para. [0027]). As to dependent claim 39, which depends from
claim 30, Vale further disclose(s): The device of claim 30 wherein the device further
comprises a personal digital assistant ("...personal digital assistants PDAs")...," para.
[0027]).

As to claims 40-48, these claims differ from Claims 1-19, in that they are directed toward a product by process. Accordingly, claims 40-48 are rejected for the same reasons set forth in the treatment of claims 1-19.

RESPONSE TO ARGUMENTS

6. Applicant arguments, see pp. 8 filed 12/11/2008, with respect to the 35 U.S.C. §102(b) Rejections cited by the Examiner in the previous Office Action (Dated:9/19/2008), have been fully considered but are not persuasive. Therefore, the rejection(s) have been maintained...

Applicant argues:

...Vale makes no mention of making any determinations whatsoever based on what occurred before a particular file list was opened. Instead, Vale only discusses various processes which may occur after a navigation or edit mode has been entered into, i.e., after a file list has already been opened. For example, paragraphs [0040] and [0041] discuss how individual files may be selected based upon the use of a direction input when navigating through a list, inherently requiring that the list already be open when the direction input is actuated. Other sections of Vale also reference processes that occur after a list has been opened. In none of these locations, however, is there any discussion of making any determinations based upon what occurred before a list was opened.

Application/Control Number: 10/767,479 Art Unit: 2178

In response to applicant's argument it is noted that the features upon which applicant relies, are taught by the Vale:

Returning to decision block 330, if an interactive element is visible in the direction of direction input 320, selecting the next interactive element depends on the direction of direction input 320, unless no interactive element has been selected previously.

(para. [0041]) (emphasis added).

Applicant argues:

For substantially the same reasons as those discussed above, Applicant also disagrees with the position that Vale teaches or suggests "if it is determined that there was a file previously selected by the user from the file list before the opening of the file list.

In response to applicant's argument it is noted that the features upon which applicant relies, are taught by the Vale:

Decision block 330 determines if an interactive element is at least partially visible in the direction of direction input 320, either relative to the beginning of the content if no interactive element has been selected or relative to an interactive element that is selected currently. If no interactive element is visible in the direction of the direction input, decision block 340 determines if more content is available in the direction of the direction input. If more content is available in the direction of the direction input, the display scrolls 342 in the direction of the direction input; otherwise, the direction input is ignored 344.

(para. [0040])(emphasis added).

Applicant argues:

Applicant also disputes the Examiner's contention that Vale teaches the feature of "automatically determining if there is a next file listed relative to the previously selected file in the file list." With regard to this particular limitation, the Examiner is directed that this automatic

Art Unit: 2178

determination of a next file is based upon "the previously selected file" and not "a previously selected file."

In response to applicant's argument it is noted that the features upon which applicant relies, are taught by the Vale:

...determines if an interactive element is ...visible in the d... if no interactive element has been selected or relative to an interactive element that is selected currently... otherwise, the direction input is ignored 344.

(para. [0040])(emphasis added).

CONCLUSION

- 7. All prior art made of record in this Office Action or as cited on form PTO-892 notwithstanding being relied upon, is considered pertinent to applicant's disclosure. Therefore, Applicant is required under 37 CFR §1.111(c) to consider these references fully when responding to this Office Action.
- THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date

Application/Control Number: 10/767,479 Page 11

Art Unit: 2178

of the advisory action. In no event, however, will the statutory period for reply expire

later than SIX MONTHS from the mailing date of this final action.

9. Any inquiry concerning this communication or earlier communications

from the Examiner should be directed to Samir Termanini at telephone number is (571)

270-1047. The Examiner can normally be reached from 9 A.M. to 6 P.M., Monday

through Friday.

If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's

supervisor, Stephen S. Hong can be reached on (571) 272-4124. The fax phone number

for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR

only. For more information about the PAIR system, see http://pair-direct.uspto.gov.

Should you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a

USPTO Customer Service Representative or access to the automated information

system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
